

Alpha Sigma Mu

The international professional honor society for materials science and engineering

ALPHA SIGMA MU INTERNATIONAL HONOR SOCIETY FOR MATERIALS SCIENCE & ENGINEERING LECTURE/AWARDS AT MS&T, HOUSTON

ALPHA SIGMA MU Annual Meeting will be Monday, 18 October 3 pm at MS&T Meeting, Houston, TX. Alpha Sigma Mu Lecture: “The Future of Materials Technology: Design, Failure Analyses & Societal Impact” by Dr. Fred E. Schmidt Jr. PE, FASM. Fred is Technical Director-Materials Engineering/Senior Managing Constant, Engineering Systems Inc.

ALPHA SIGMA MU Honor Society is dedicated to encouraging and recognizing excellence in the materials engineering field. Undergraduates who are in the top 20% of their class in worldwide materials science and engineering programs are eligible for the award. Graduate students and faculty are also eligible for membership. Our website: www.alphasigmamu.org has the online nomination forms.

ALPHA SIGMA MU has a scholarship program and an active university chapter system where student leaders further gain confidence and hone their leadership skills. There are currently 36 active chapters with new chapters being formed domestically and internationally. At many universities, Alpha Sigma Mu and Material Advantage chapters co-exist and work effectively together.

ALPHA SIGMA MU also has a partnership with Experience Inc. to provide its membership with job openings on a lifelong basis. Members are encouraged to register at Career Central on our website to gain access to this member benefit.

ALPHA SIGMA MU is dedicated to continue to improve its services and strives for excellence to meet the changing needs of its members and chapters. We encourage undergraduate and graduate students to talk to their faculty about getting active in our society. Faculty that teach materials science and engineering but were missed in college are welcomed as members, but you must register for membership on our website.

**Dr. Jack G. Simon
President**
